Instructions for authors / Directives aux auteurs

Detailed instructions for authors may be found in the February 1997 issue on pages 72 to 74.

On trouvera des instructions détaillées à l'intention des auteurs dans le numéro de février 1997, aux pages 75 à 77.

Cover/couverture

Displaced femoral neck fracture, preoperatively and postoperatively. Despite decades of debate, displaced femoral neck fractures remain the "unsolved fractures." In this issue (page 271) Chua, Jaglal and Schatzker examine the role of surgeon preference in the treatment of patients who sustain this common injury.

Fracture déplacée du col du fémur, avant et après l'intervention. Malgré des décennies de débats, les fractures déplacées du col du fémur demeurent les «fractures non réglées». Dans ce numéro (page 271), Chua, Jaglal et Schatzker examinent le rôle de la préférence du chirurgien dans le traitement des patients victimes de cette blessure répandue.
